NPIC Project No. 3/64

Area Target M bounded by UTM coordinates WT751801, WT995770, WT750460, and WT710500.

Two areas are situated on the north edge of Phum Tasuos at the junction of the Phum Tasuos-Phum Bang and the Tros-Phum Pone roads at UTM coordinates WT915750.

Area A, on the west side of the Phum Tasuos-Phum Bang road, is double fence secured and contains 2 barracks-type and one support building. An unoccupied AM position is visible outside of the fencing.

Area B, across the road from Area A, is fence secured and contains 3 buildings.

The 2 roads in the area appear to be single-lane, natural surface and in fair-to-poor condition. Trafficability is probably limited to fair weather.

No vehicles/pieces of equipment were observed in either area.
